

Unicorn Watermark

I am trying to identify a specific unicorn watermark. It's pretty similar to many late 16th century watermarks as cited eg. in the Gravell Watermark archive. But I wonder if anyone has come across this particular example. It's on a sheet of paper with a small piece of text which I think may have been written by William Lambarde. I'll be going to look at other material to check out the watermarks, but as watermarks are a completely new field for me I don't want to reinvent the wheel. In case this is something immediately obvious to specialists in the field I thought I'd post this here first.
